Commences: September 2015

Fees: Please visit our website for fees: www.rcsileadership.org/Academic_Prog_Fees

The Programme

This programme has been designed to develop the ability to debate the drivers and barriers for a quality and safe healthcare system. It will give the student the opportunity to use quality improvement tools and interventions that are specific to quality, safety and risk in healthcare. The programme will provide healthcare professionals with the skills to evaluate core concepts around patient safety, quality, accreditation and governance. Students will be expected to explore their leadership skills in leading a change project based on sound research evidence.

Is This Programme For You?

Applications are invited from all those working in the healthcare sector including doctors, managers, nurses, other clinical specialists and administrators who wish to develop and extend their knowledge and skills in the management of quality and safety in healthcare.
