About This Programme

Healthcare organisations are among the most complex in today's society. As a new era for healthcare emerges, healthcare leaders will need to manage increased risk, uncertainty, ambiguity and effectively manage and implement change, which requires effective leadership style and qualities. This programme is designed to develop Tomorrow's Leaders Today by significantly developing leadership competencies, management skills, and the ability to be innovative in an uncertain healthcare environment that has limited resources, increased demands and significant budget restrictions.

Is This Programme For You?

This programme is designed for healthcare professionals who wish to significantly develop their leadership competencies and management skills, increase their self-awareness and drive their organisations towards long term success for patients, other stakeholders and the wider community. This programme will enhance your personal and professional development and at the same time provide you with a highly reputable MSc in Leadership degree (awarded at level 9 NQF).
